Student Feedback

ICLP is an institution that makes impossible tasks possible by improving students' language ability in the **shortest period of time** and by **enriching life experience**.

— Mark Puig

The **curriculum and texts are top notch**, and the learning environment is great [...] If you come to ICLP, you are in for a year of very **hard work**, and very **tangible rewards**.

— David Bosworth

Student Feedback

The classes were carefully structured but also allowed sufficient **freedom** to challenge students **to express their own ideas** in their own words. Having studied both modern and classical Chinese for many years in a number of different schools and countries, I can honestly say that ICLP is the best language learning environment I have experienced.

— Christopher Nugent, Ph.D.

ICLP's online classes are a game-changer when it comes to studying Chinese. Never before could people study **advanced Chinese** with such high-quality instruction, **no matter where they're located**.

— Matthew Silberman
