- Result of the elections for a new BACS Treasurer as well as new members of BACS Council

BAKS AGM (BAKS members only) @ ABLT1

### **Presentation Preparation & Structure**

#### <Before the conference>

You do not need to submit your paper or your presentation slides in advance of the conference. Please prepare a USB device with your presentation loaded as a Microsoft PowerPoint or a PDF file of your presentation.

You will not be able to access your presentation from email on the room computers. We also **do not** advise that you bring a laptop to share your slides, in case of technical difficulties connecting to the room computer.

#### <During the conference>

Please come to the presentation room assigned to your panel 10 minutes before the start time. Load your presentation from your USB onto the computer in the room. We will delete your files from the computer afterwards.

Each presenter will have 15 minutes to give their paper. This is about 1600-1900 words read in English at a moderate pace. We encourage all presenters to check their script length or practice their presentation to make sure they stay within the given time.

Your nominated Panel Chair will be the timekeeper for your panel. We suggest allowing questions to be asked after all panellists have had the opportunity to present.

#### <Accessibility>

We welcome a wide variety of academic research and perspectives at the conference. Given the different disciplines and experience, we ask that presenters be considerate of presenting to audiences from outside their discipline who may be less familiar with theoretical or technical terms.

### **Publisher Book Exhibition**

We will have publishers' stands with their publications/books at the **STU Social Space** (lunch venue) throughout the conference.

Participating publishers are: Routledge, Yale University Press, Amsterdam University Press, and Harvard University Press (subject to change).

*We are mindful of our environment and the impact of climate change, therefore, we will not provide a printed version of the programme.*
